

# “2017 National Extrication Challenge”

Presented by

Sanctioned by

**October 25-28, 2017  
Pinellas County, Florida**

The 2017 National Extrication Challenge will see up to twenty rescue teams from all over North American, South America and Europe participate in a team based scenario training exercise designed to promote good team dynamics, improve communications and increase rescue scene proficiency. Each team will consist of six members, the team leader, a medic, two technical rescue personnel and one person responsible for both medical and technical operational support.

All teams compete in two scenarios and additional training evolutions.

- **20min. Standard**, where the team will perform a rescue operation involving multiple vehicles and will be assessed on their ability to survey the scene, create & execute an extrication plan, package & remove one stable entrapped casualty. All tools are available.
- **20min. Limited**, The scenario criteria is the same as the “Standard” with the one exception that **NO** hydraulic tools (including battery powered hydraulics) will be allowed.

The 2017 National Extrication Challenge is open to all teams and entry will be based on the first twenty paid entries received with special reservations made for regional challenge winners. This challenge is a World Rescue Organization (WRO) sanctioned event and participation will qualify teams for further National and International Rescue Challenges.

Awards will be given to the top team in each evolution and the overall top combined score. All teams will have access to the same tools during the challenge and a detailed tool list will be provided. The overall top team will receive additional sponsorship support to future NAVRA & WRO events

**Event Cost \$1,500**

**Includes all training, event shirt and buffet at host hotel**
